PIGEON ONLY PARADISE!
CHIQUITANIA—BOLIVIA
SHOOT, LAUGH & ENJOY!

LARGE UNTOUCHED FIELDS OF PIGEON

A short distance from the border of Paraguay, this new pigeon lodge is in a naturally forested region close to vast Mennonite fields of sesame, corn, sunflower and sorghum — the pigeons get plenty to eat! A nearby wooded area provides roosting, resting and breeding habitat.

Morning and afternoon shoots of 4 days for both decoying birds and pass shooting. Shots will be from multiple directions and distances, but pigeons tend to be attracted to decoys in front of each hunter's blind.

- ***SEASON: April to October***
